Why It Matters

Each Organization & local institution have an important role to play in preventing gender-based violence and no one agency can do this work alone. A thorough system map will provide our Coordinated Community Response (CCR) with a clear picture of how domestic violence, dating violence, stalking, sexual assault, human trafficking, child abuse, and elder abuse cases are processed by the Civil Legal System, Criminal Legal System, and Community as a whole. Once a map is created, it provides a solid framework from which organizations can develop a collaborative and responsive plan to enhance victim safety and offender accountability.
